

ECOPAD

THE ABSORBING PAD FOR FOODSTAFF

MAGiC
ABSORBENT AND COATED PRODUCTS

AVAILABLE
IN DIFFERENT COLOURS

ecopad

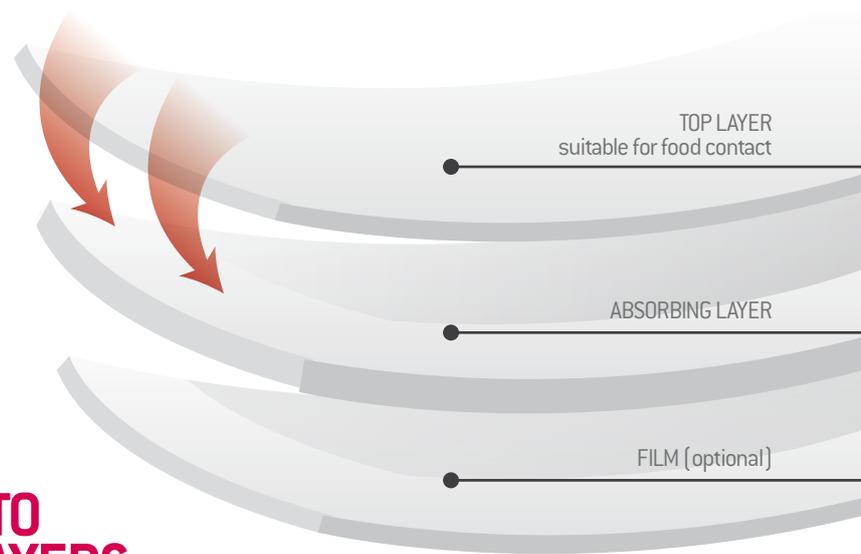

**SAF FREE
HIGH ABSORPTIONS**

It is the most versatile absorbing pad of Magic range, it is the most used by tray producers as it is suitable for automatic pre-padding machines.

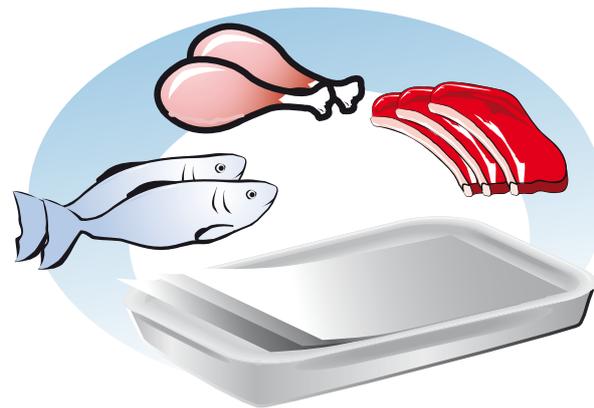

Thanks to the flexibility of the manufacturing process, the range of Eco Pads is very large. Eco Pads are available in several absorption capacities (from 800 up to 12000 gsm) and in different colours, in order to satisfy all packaging requests.

Eco Pad is available in various sizes, both cut and in rolls.

STRUCTURE:

**UP TO
3 LAYERS**

The benefits

Large range of absorptions both with superabsorbent fibers and cellulose based.

- The de-lamination and the release of fibers are minimal in saturation conditions too, thanks to the special absorbing structure.
- Eco Pad is a winning product for the low environmental impact thanks to the short incidence on the weight of the total packaging; Eco Pads comply with the European regulations of suitability for food contact.
